Construction Company Standard Operating Procedures : Checklist

For construction workers, foremen and safety managers. Adapt every item to your site, equipment and written procedures.

Checklist

- ■ Hazard covered: electrocution
- ■ Hazard covered: struck-by contact with vehicles
- ■ Hazard covered: caught-between hazards
- ■ Decision practiced: communicate a hazard to the crew
- ■ Decision practiced: choose controls for each task
- ■ Decision practiced: identify hazards during a site walk
- ■ Decision practiced: check permits before work
- ■ Hands-on part done: site orientation on the real project
- ■ Hands-on part done: hands-on equipment training
- ■ Hands-on part done: the site-specific safety plan
- ■ Review question: were controls chosen?
- ■ Review question: were near misses reported?
- ■ Review question: was stop work used?

Stays hands-on and in person

- • site orientation on the real project
- • hands-on equipment training
- • the site-specific safety plan

This checklist supports, and does not replace, required training, supervision or evaluation. It does not certify anyone.
