OSHA Arc Flash Requirements : Checklist

For electricians, maintenance technicians and qualified persons. Adapt every item to your site, equipment and written procedures.

Checklist

- ■ Hazard covered: approach boundaries ignored
- ■ Hazard covered: wrong protective equipment rating
- ■ Hazard covered: damaged cords and tools
- ■ Decision practiced: read the equipment label and select protection
- ■ Decision practiced: set approach boundaries
- ■ Decision practiced: inspect tools and meters
- ■ Decision practiced: stop when conditions differ from the plan
- ■ Hands-on part done: hands-on lockout with the real equipment
- ■ Hands-on part done: meter verification
- ■ Hands-on part done: the site electrical safety program
- ■ Review question: was protection matched to the label?
- ■ Review question: were boundaries respected?
- ■ Review question: was de-energized work chosen when possible?

Stays hands-on and in person

- • hands-on lockout with the real equipment
- • meter verification
- • the site electrical safety program

Related regulation: 29 CFR 1910.332(a)-(c). Training scope only; check applicability for your workplace.

This checklist supports, and does not replace, required training, supervision or evaluation. It does not certify anyone.
